TO THE STUDENTS OF GALLIA COUNTY

Another year has gone by and your journey stretches ahead. When you gaze in retrospect at these years - your first step - you will realize that the years spent in secondary education will have constituted the most important and formative steps in your lives.

The knowledge you gain, and the experiences you encounter during your high school years will be invaluable as you prepare for the future and mature in the understanding of the complex world in which you live.

- Clarence Thompson
County Superintendent

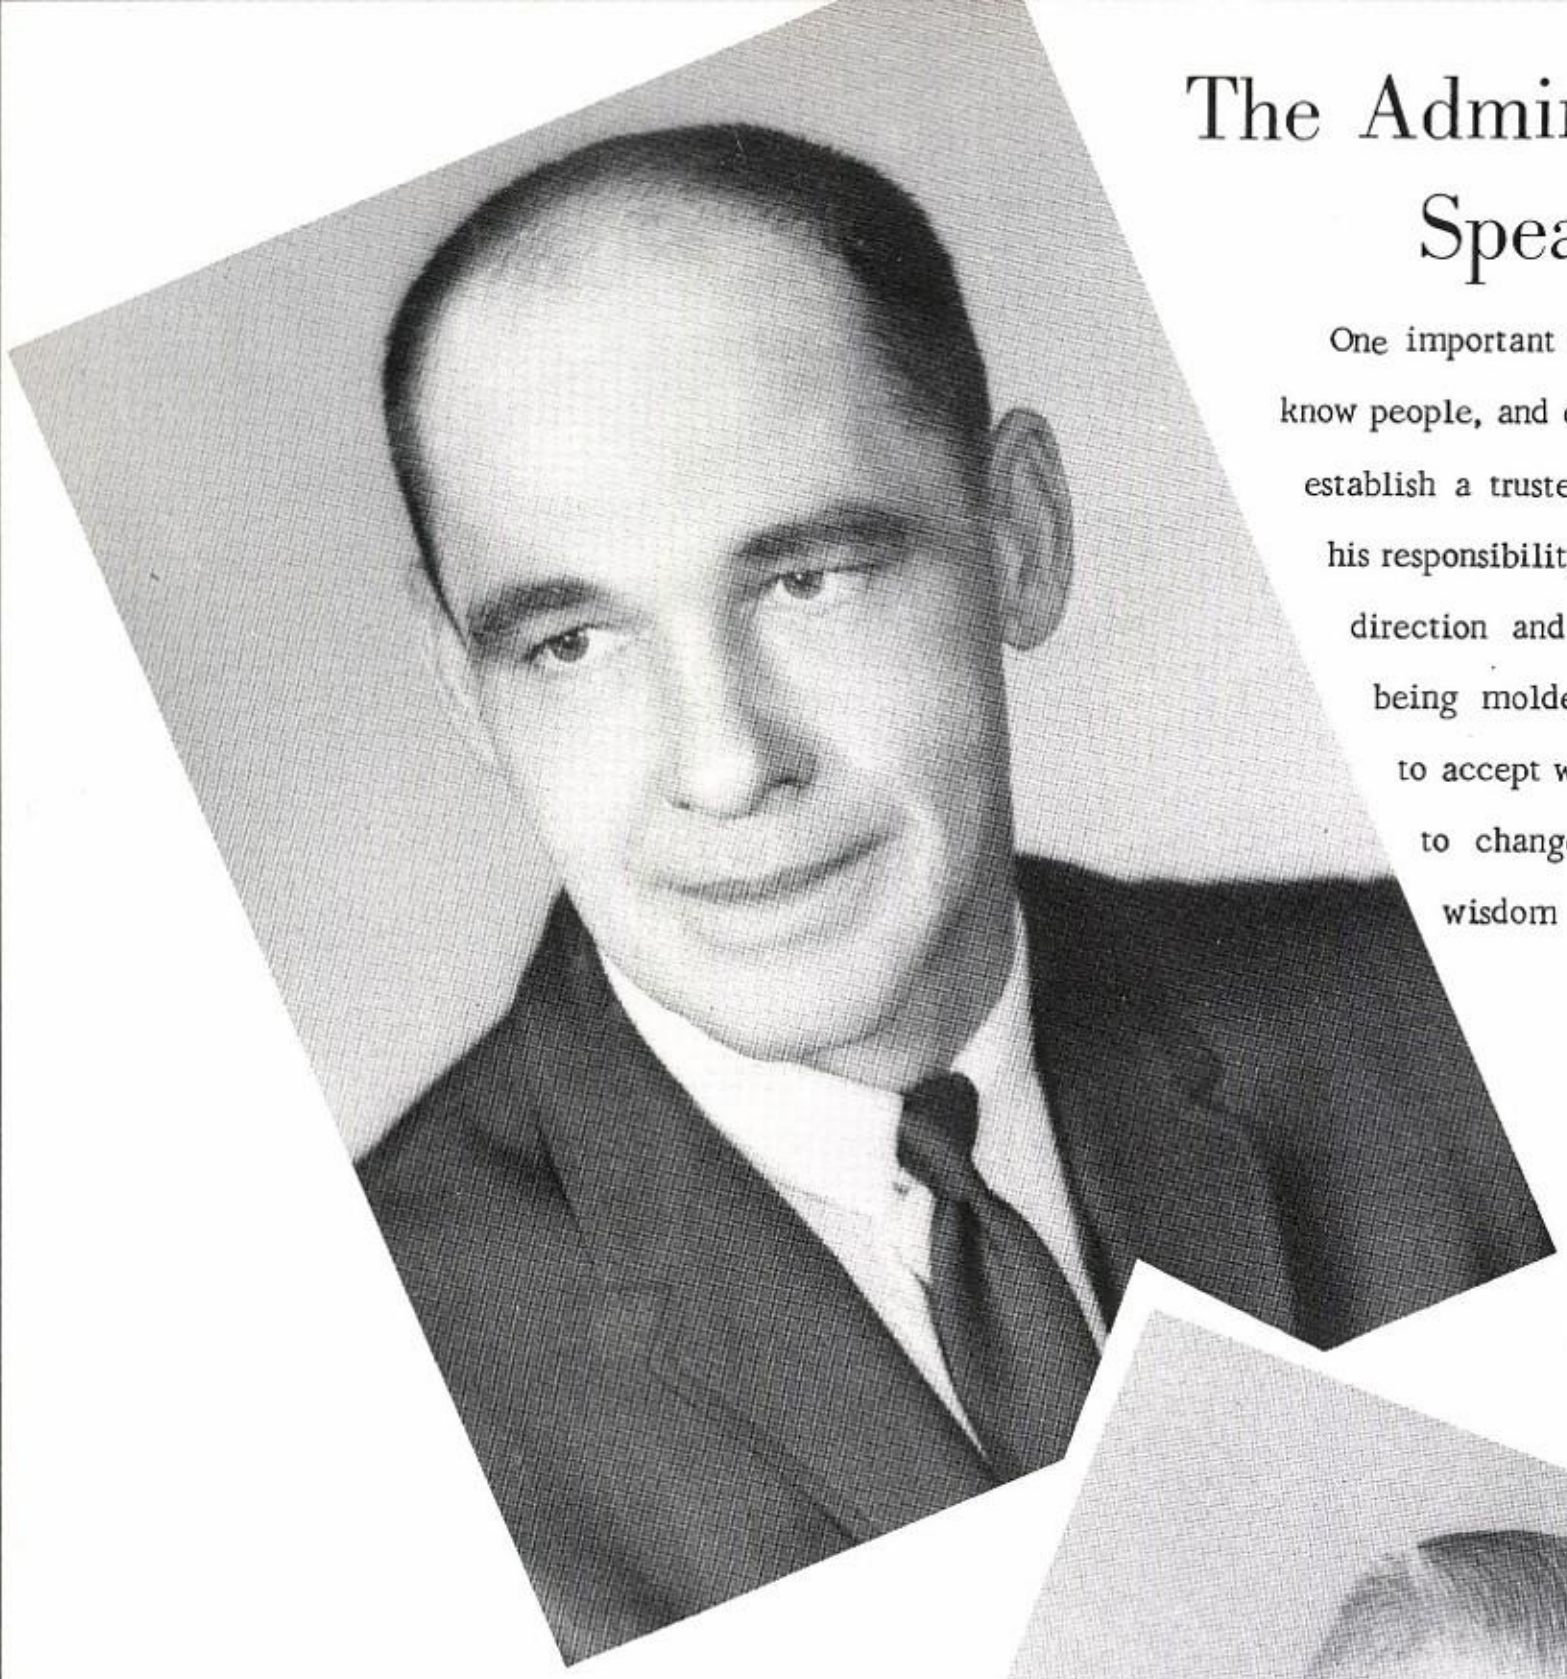
# The Administration Speaks



One important task of a school administrator is to know people, and especially children and to be able to establish a trusted friendship with them. He accepts his responsibility seriously, realizing that through his direction and efforts the future of our land is being molded and he seeks "for the serenity to accept what cannot be changed, the courage to change what can be changed, and the wisdom to know one from the other."[1]
